Ingredients for happy art

***We believe that all children are creative
and are deserving of a quality art
experience even around the kitchen table.***

We understand parents are busy but value offering a rich art experience for their children whenever the creative urge arises.

We provide the encouragement and instruction: you provide the space.

PRIMERRY brings art projects from Deep Space Sparkle, a website for art teachers, to the home by providing happy art projects that will unleash your child's inner artist.

Art Membership for Families Coming Soon!
